This class will consist of three senior leaders leading OCs in problem solving for three-to-five scenarios by questioning the OCs on the best courses of action to solve the problems, while injecting senior leader insights as needed.

4. INSTRUCTIONAL INTENT: Senior Leaders represent many decades of experience, which OCs can glean via close attention and interactive discussions.

5. TRAINING OBJECTIVES: Enabling objective (core knowledge objectives) (if needed, one per distinct training activity, with Action/Condition/Standard) normally couched in student action. See TR 350-70, Chapter VI-6, Training Course design.

As a result of this instruction, the student must accomplish the following training objectives:

Action: Implement Leadership Training by Problem Solving Difficult Situations

Conditions: Interactive Classroom.

Standard: Learn by Applying Leadership Techniques to Problematic Scenarios

TERMINAL LEARNING OUTCOMES: At the completion of this period of instruction, the students should be familiar with the following:

OUTCOME #1: Discover leadership techniques by problem solving in difficult situations.

OUTCOME #2: Compare lessons learned to the 14 Leadership Traits and 11 Principles.

7. REFERENCES: TBD.

8. INSTRUCTIONAL MATERIAL ISSUED TO STUDENTS: Use articles and book assignments to enhance understanding.

9. ADVANCE ASSIGNMENT: None.

10. EVALUATION FORMAT: At class conclusion the instructor or VDF staff will pass out and evaluation form per below format to each student. They will be reviewed by the instructor and VDF OIC. 1. LESSON NUMBER AND TITLE: VDF 306, Land Navigation

2. CLASS TIME: 4.0 hours

3. HOW IT WILL BE TAUGHT:

a. BACKGROUND: The class introduces the student to the basics of map reading, compass use, and land navigation. OCs should understand that Geo-positioning software can fail totally or be inaccurate. Land navigation is a skill that will be useful in a wide variety of missions, from communications locations, to search and rescue.

b. CONDUCT: This class will be conducted in a classroom with chairs set into a conference mode. Use of visual aids, such as slides and white board provided, is encouraged. Students will be allowed to ask questions during the instruction. The preferred instructor is a senior NCO. The class will include at least half of the time as practical application, consisting of five land navigation points which allow the OCs to traverse at least one hill, finger, draw, flat space, and open area using map, compass, and pacing. Preferred location is in the general vicinity of the FPVA stadium. OCs will be provided the teaching materials 60 days in advance and will be called on in a rotation to teach portions, with the primary instructor correcting and amplifying as needed – both to thoroughly teach the material, and to coach the OC instructors.

4. INSTRUCTIONAL INTENT: VDF Soldiers must learn the basics of map reading, compass use, and land navigation as a fundamental military skill. This is secondarily a “T4T” event, so OC assistant instructors can monitor or deliver the training at their unit.

5. TRAINING OBJECTIVES: Enabling objective (core knowledge objectives) (if needed, one per distinct training activity, with Action/Condition/Standard) normally couched in student action. See TR 350-70, Chapter VI-6, Training Course design.

As a result of this instruction, the student must accomplish the following training objectives:

Action: Learn Map Reading and Land Navigation

Conditions. Interactive classroom and field exercise; given a 1:50,000 scale map (TENINO), protractor, lensatic compass, pacing measure, and IAW FM 3-25.26.

Standards. Read and Orient a Map, and Apply Compass and Map Reading in a Practical Exercise

6. TERMINAL LEARNING OUTCOMES:

OUTCOME #1: Correctly identify the five major, three minor, and two supplementary

terrain features IAW FM 3-25.26.

OUTCOME #2: Identify location by relating terrain features to a map and determining a five-digit coordinate.

OUTCOME #3: Determine personal pace measure.

OUTCOME #4: Identify compass components, how to shoot an azimuth/back azimuth, and how to orient a compass to a map.

OUTCOME #5: Using a 1:50,000 scale map, protractor, lensatic compass, pacing measure, find five points on a map.

* At conclusion Review/Summarize, repeating the core knowledge.

7. REFERENCES: The instructor will use the following references, and may add additional ones upon discussion with VDF OIC.

- a. FM 3-25.26, Land Navigation
- b. OCS202 A-D materials (three Power Point presentations and one handout).

8. INSTRUCTIONAL MATERIAL ISSUED TO STUDENTS: Use of standard OCS202A-C slides and OCS202D handout. Prepared class handouts are optional and at the discretion of the designated instructor upon discussion with VDF CSM.

9. ADVANCE ASSIGNMENT: Study OCS202 A-D materials (three Power Point presentations and one handout).

10. EVALUATION FORMAT: At class conclusion the instructor or VDF staff will pass out and evaluation form per below format to each student. They will be reviewed by the instructor and VDF OIC.
